

NOTICE

Beginning 1,1, 26, Ecoer Condensing Units were shipped to distribution with a free 4G Gateway. The purpose of this program was intended for the distributor to encourage the installing contractors to install a Free 4G Gateway on every Ecoer installation.

Benefits of installing the 4G Gateway are system monitoring and a Limited Ten-Year Parts Warranty. Limited Warranty without the 4G Gateway is 5 Years and technical supports ability to monitor and diagnose an issue without being on site is limited.

To-date Ecoer has depended on distribution to pass on the Free 4G Gateway, therefore enhancing the relationship and the quality of technical support with the installing service contractor.

Beginning in April 2026, Ecoer will announce this program, and its benefits on our website and social media.

Install a 4G Gateway on every Ecoer TDi Pro 2, TDi Pro Select, RTi full inverter Heat Pump
